

COYOTE HIGHLANDS COYOTE CANYON

PLANNING PROCESS

MONTHLY E-BLAST
April 2018

ON THE GROUND

Consultants from H.T. Harvey & Associates are conducting resource surveys to establish baseline conditions on the property and provide recommendations for management practices within Natural Resource Management Zones. Surveys include: vegetation, hydrology, landslide/erosions hazards, reptile, amphibian, bird and mammal.

Consultants from BFS Landscape Architects are analyzing the opportunities and constraints of several potential trail alternatives to identify a preferred alternative. This analysis includes consideration of potential environmental concerns based on the natural resource surveys described above.
